PROJECT

Fraser Suites Abuja

Location: Abuja Nigeria | **Period:** 26th -27 March 2025

Principium Consults Ltd delivered a two-day leadership training programme for the management team of Fraser Suites Abuja, focusing on Environmental, Social and Governance (ESG) principles and effective business communication.

The training was designed to strengthen managerial competence, improve communication across departments, promote accountability, and encourage responsible decision-making. By integrating ESG principles into management practices, the programme equipped participants with a clearer understanding of how ethical leadership, environmental responsibility, social impact, and good governance contribute to long-term business success.

For Fraser Suites Abuja, the training provided valuable insights into building a stronger organisational culture, improving teamwork, aligning management decisions with corporate values, and enhancing service delivery. Ultimately, the programme reinforced the importance of sustainable leadership in protecting the organisation’s reputation, improving operational effectiveness, and creating lasting value for employees, guests, and other stakeholders.
