PROJECT

The Wells Carlton Hotel And Apartment

Location: Abuja Nigeria | **Period:** May 28, 2024 - May 30 2024

The training focused on understanding Principles, Policy and Ideology (PPI), the foundational elements required to build and sustain a world-class five-star hotel like The Wells Carlton Hotel and Apartment.

When leadership and employees share a common understanding of these elements, the organisation creates a strong foundation for long-term sustainability.

Sustainability is built on three interconnected pillars: People, Culture and Brand. When people understand the principles, culture reinforces the policies, and the brand consistently reflects the organisation’s ideology, the hotel is better positioned to achieve lasting success.
